

Workwell Deferral for Safety Group Participants Cancelled Effective July 31, 2009

The practice of providing a Workwell (WW) deferral for firms joining the Safety Group program is cancelled effective July 31, 2009. There will be no deferrals to any firm after that date. Firms that are currently selected to receive a WW audit may receive a deferral if they apply for the 2010 Safety Group program before July 31, 2009. Any firms that are selected for a WW audit after August 1, 2009, both safety group firms and non-safety group firms, will not be provided with a Workwell deferral. Those firms should work with their health and safety association and WW Evaluator to prepare for the audit, and are encouraged to join and/or remain in safety groups to prepare for the audit.
