## WSN Safety Group

can help your organization build a sustainable health and safety system...and achieve a healthier bottom line

### WHY JOIN THE WSN SAFETY GROUP?

The WSN Safety Group, operating under the Health & Safety Ontario (HSO) banner, provides your organization with access to one of the most effective workplace health and safety resources in Ontario.

The WSN Safety Group continues a long record of success. WSN's predecessor organization OFSWA, has sponsored a Safety Group for more than 10 years.

Membership and active participation in the WSN Safety Group will enable participating firms to become more self-reliant in carrying out their responsibilities in preventing workplace illnesses and injuries. The WSN Safety Group creates a dynamic opportunity for organizations to come together to share ideas and solve problems while taking advantage of the new Health & Safety Ontario sponsor structure.

### SAFETY PERFORMANCE

WSN Safety Group members get the benefit of our all-inclusive and proven approach — one that sets us apart from the competition and gives you the most value for your safety dollar. Members receive:

**Productive meetings:** WSN Safety Group meetings are led by experienced Safety Group chapter leaders and mentors.

**Expert advice tailored to your needs:** Skilled consultants work with you to help determine which health and safety elements your workplace needs to focus on and develop an action plan.

**Networking:** WSN Safety Group meetings provide networking opportunities for member firms to share policies and programs.

**Individual attention:** With a small number of firms, you can be sure of individual attention and meaningful participation. Safety Group consultants check your progress and provide advice on further improvements.

**Doing business where you do business:** The WSN Safety Group will meet four times in 2012 - in Renfrew, Barrie, Brampton, Brantford, and Quinte. Meeting locations and dates are to be determined.

## THERE'S EVEN MORE...

Online information and resources: Your membership includes access to a website for the use of Safety Group members.

You can access downloadable forms, policies, procedures and checklists.

## “ROAD TO ZERO”

Ontario's Workplace Safety and Insurance Board (WSIB) is on the Road to Zero. This policy outlines the systemwide mission to reduce workplace injuries and fatalities by 35% by the year 2012.

The WSIB is targeting not just firms with high injury rates and a poor compliance history, but firms of a particular size, with known hazards, specific types of workplace incidents or those that have new and/or vulnerable workers.

The WSN Safety Group takes this WSIB targeting strategy into account and is designed to ensure that any participating firm — no matter what its current level of safety performance — can find effective ways to improve.

## WHAT OUR CUSTOMERS SAY

“[Safety Groups] really generated a culture of safety here at Millson Forestry Service right from senior management to supervisors, down to all employees and it's really important that we have a good relationship between senior management and supervisors and just as important is the supervisors to have that relationship with the employees.”

**Mark Joron**

Millson Forestry Service, Timmins

“The staff from the Safety Group is very competent to work with. They have provided us with the tools and information to keep our health and safety policy comprehensive and up-to-date, because the law is always changing. Safety Groups has networking opportunities so we can get more health and safety information.”

**Don Osborne**

Canadian Tire, Thunder Bay

“By participating in Safety Group programs Tembec has been able to keep focused on health and safety matters. It helps us to make advancement and maintain a good health and safety program and it helps us improve our safety performance.”

**Rene Bergeron**

Tembec Inc. Cochrane

## WORKPLACE SAFETY NORTH

Workplace Safety North provides northern Ontario's businesses, industries and services with occupational health and safety resources, training and consulting, to help companies achieve the goal of zero workplace injuries and illnesses. In addition to serving all northern Ontario firms, we provide province-wide services for forestry, mining, smelters, refineries, pulp & paper, and printing industries.

## ABOUT WSIB SAFETY GROUPS

Safety Groups is a performance-based rebate program developed by the Ontario Workplace Safety and Insurance Board (WSIB). It offers firms participating in Safety Groups the opportunity to receive rebates on their WSIB premiums if they can collectively improve their health and safety performance.

Firms must tackle five key elements of their safety program over the course of a year. Safety Group sponsors hold four meetings during the year, of which the firm must attend at least three. Successful performance by a Safety Group, as determined by a random WSIB Validation Audit, will result in a rebate of up to 6% (of WSIB premiums). To find out more about the WSIB's Safety Groups Program, visit [www.wsib.on.ca](http://www.wsib.on.ca).
